

AHMED BELMILOUD

SOFTWARE DEVELOPER

EDUCATION

UNIVERSITY OF COMPUTER SCIENCE

2019 - 2021 | now I am completing my graduation studies at Abdelhamid Ben Badis University of Computer Science

2 + Baccalaureate

2018-2019 | Réussir au baccalauréat
2019-2020 | Réussir au baccalauréat

EXPERIENCE

2021

Choosing Mobile Application

Programming with Flutter (Dart)

- I really loved programming using Dart language, and I achieved success in it, as I was able to recreate user interfaces for famous applications, including Facebook, Instagram, Tinder, in addition to Deezer, and it did not stop there, but I was able to study the backend Firebase (online data base) , SQLite (offline data base) , and programming ui desktop app

2020

Web And Mobile app !

Programming with React-Native (js) , web using html5,css,js,jquery,json,php,sql

- I have been able to create React Native apps, including an app to blend colors with its code, and Make GYM App ui, my experience with it was about a month .
- In programming site web I managed to program Chat and shop using php and sql for ui html , css and js (jq , json)

2019

Start Development !

Programming with Java

- I have developed some applications using Java in Android Studio, including , wallpaper , Music app , Idea App ...

ABOUT ME

I am passionate about building excellent software that improves the lives of those around me. Inspired software engineer in JavaScript and Flutter technologies . I create applications for both the web and Android & ios, most of them using flutter , Java and JavaScript , but I also develop myself from other sides !
